

Baby Moses in the Basket

Materials:

- Pattern is on the catechist portal; one per student
- Crayons or markers
- Tape
- Glue
- Scissors
- Craft sticks; one per student

Have the students color and cut out their patterns and glue a craft stick to the back of the basket.

To create the illusion of the basket floating down the river, cut a slit along the dashed line and then tape the right end of the river pattern closed. Next, poke the basket through the opening. As you tell about Moses being put on the river, have the students move Moses down the river.

Remind the students that God was always watching over Moses just like He is always watching over us!
