

“The Story of Jesus’ Passion”

Instructions:

To make a simple booklet from a single piece of paper, have students hold the blackline master so that the title page is upside down on the top left of the sheet of paper. Fold the top to the bottom so that the title page is on the outside. Now fold the paper in half again, connecting the left edge with the right edge. The printed title page should now be right side up on the front of the booklet.

Next, open the booklet like a book and staple the middle crease twice.
Now, cut the top crease.

This will result in a cover and three internal pages for students to work with.
